

INREACH® SATELLITE COMMUNICATORS

With inReach satellite technology from Garmin, you're never out of reach. These rugged, go-anywhere portable devices empower you and your team to stay connected, even when they are well beyond the range of cell phone towers or line-of-sight radio communications.

All inReach Devices with a Professional Subscription Plan Offer These Essential Capabilities¹

- Global two-way communication and team messaging
- Professional 24/7 global SOS monitoring
- 100% global Iridium® satellite network
- GPS tracking with routes, waypoints and map sharing
- Asset tracking to view and monitor your field team or assets
- Weather forecasts available directly on the inReach device
- Professional management website
- Mobile apps for pairing with smartphones and tablets²

INREACH DEVICES ARE DESIGNED TO MEET THE NEEDS OF ANY ORGANIZATION OR TEAM

inReach Mini

Compact, Lightweight

- Weighs only 4.23 oz
- Basic GPS and compass navigation
- Can be paired with a compatible mobile device to access mapping and additional navigation and messaging features
- Can be paired with compatible Garmin watches and other devices for additional functionality

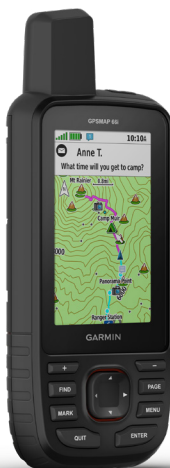

MRP: \$349.99

inReach Explorer®+ and SE®+ Long Battery Life

- GPS for tracking and navigation with a breadcrumb trackback trail
- Preloaded topographic maps, built-in digital compass, and barometric altimeter and accelerometer
- Internal, rechargeable lithium battery provides up to 100 hours of battery life in tracking mode and up to 30 days in power-save mode³

MRP: \$449.99

GPSMAP® 66i

Premium GPS with inReach

- 3" sunlight-readable color display
- Preloaded Garmin TOPO mapping
- Direct-to-device BirdsEye Satellite Imagery downloads
- Built-in memory and SD™ card support for adding additional maps
- Multiple Global Navigation Satellite Systems (GNSS) support
